

# One-on-One Coaching

A PERSONAL GROWTH EXPERIENCE

## MINISTRY IS CHALLENGING

The challenge that many leaders face is addressing obstacles, while at the same time taking advantage of opportunities for growth. But there never seems to be adequate time to address these important issues. The problems remain, while the opportunities pass by. Leaders find themselves at a plateau, unable to reach their full potential.

Since 2000, Ministry Coaching International has come alongside and coached hundreds of pastors and ministry leaders towards achieving success in their ministries and in their lives. Coaching will help you reach your full potential by discovering new approaches to leadership, overcoming the obstacles in your ministry, and seizing the opportunities that have always been there. You will experience greater fulfillment, clarify your vision, and enlarge your ministry team.

## ONE-ON-ONE COACHING

One-on-One Coaching is an ongoing personal relationship. Your coach is dedicated to helping you succeed. Together, you and your coach will create a plan to manage your ministry and life with laser focus and purpose. And as you grow, you will help others on your leadership team to grow along with you.

The One-on-One Coaching System<sup>®</sup> uses curriculum designed specifically for you. Your coach will address your challenges and opportunities, and create an experience that allows for the most personal and professional growth. Your coach is committed to propelling you to action, being authentic, and helping you grow not only as a leader, but a follower of Christ as well.

The Core4<sup>®</sup> are the primary coaching tools of the One-on-One Coaching System<sup>®</sup>. They include: Life Plan, Vision Plan, Ministry Plan and Priority Management. These tools address four critical areas in a ministry leader's life.

## HOW IT'S DELIVERED

Your coaching experience begins with a two hour telephone coaching session where you get to know your coach, review your assessments, and talk about the journey ahead. From there, coaching sessions take place every two weeks. Each meeting lasts 30 minutes, during which you share completed action plans, receive insight, and establish future steps for personal growth.

The One-on-One Coaching System<sup>®</sup> offers three phases of programming. Phase one focuses on personal growth, while phase two focuses on team development. Successful Living<sup>™</sup> is phase three, delivering leadership development and discipleship for lay leaders and congregational members.

## COACH CERTIFICATION

Ministry Coaching International understands the need that our clients will have to re-create the One-on-One Coaching Experience in their churches and with their staff. That's why we now offer Coach Certification. In this program, you will be disciplined by one of our coaches, while at the same time learn how to coach others in the same fashion. The idea is that you will be coached while you in turn coach your leaders. According to our vision (Colossians 1:28-29), at the end of the program you will have the knowledge and ability to fulfill your calling of equipping other leaders on your team to the same personal growth you've experienced.

*"I can honestly say that I have accomplished more personal and professional growth in the past year than I ever thought possible.*

*- Bob Hulett, Senior Pastor*

*"A personal coach has helped me realize the importance of prioritizing, the advantage of organizing, and the excitement of planning new things for my life."*

*- Alberta Wray, Mercy Ships*
